

Freshers Fair prep

I spent a fair amount of time preparing me freshers stall and organising people to be on it in preparation for Tuesday, Wednesday and Thursday.

Freshers Fair

I spent three days in freshers fair encouraging people to sign up to the new and improved campaigns collective in order to inform students about.

Advertising Go green week and general go green week stuff

I sorted out my posters for go green week and I have begun sending out the information about the week to the relevant bodies. I also negotiated to run go green week in association with IbikeMCR who have agreed to hold a few events during the week. Also, we have improved Biko live adding an acoustic act and ceilidh to the line up.

Rant week organisation

I've made a rota for rant week and ensured that we have all the equipment required for the week ready.

Also, I've been organising a team of students to go around door knocking to encourage people to sign people up to campaigns collective as part of rant week.

Banners

I've made two banners; one to welcome freshers and one for rant week.

Dealing with students

The students are finally back ☺ so I've had a number of visitors this week asking for advice on campaigns and spaces at the campaigns collective fair.

Email to all campaigning societies and networking

I sent on email around to all societies telling them about rant week and spent a lot of time at freshers fair familiarising myself with all possible campaigning societies and offering my support.
